

Steps for Preparation of Two-Minute Group Presentation

1.

Poster #1

Write the name of your group's perspective on your poster.

Write three claims developed from your perspective on your poster. (Reference the sentence frames on the reverse side of this document.)

2.

Poster #2

Draw a visual representation of the "big picture" message of your group's perspective.

Your picture does not have to be literal. It can contain imagery, symbolism, labeling, quotes, etc, but try to **keep words to a minimum**.

Include 2 values that underlie your option.

3.

Presentation

Advocate in two-minute presentation (using the written information and visual representation) why your group's perspective is the best choice.

This may be **graded** on content, design, and performance.
